2022 HISTORICAL PRODUCT CONTENT LABEL¹

Green Switch is a voluntary renewable energy program from Tennessee Valley Authority and participating local power companies. The product is sold in blocks of 200 kilowatt-hours (kWh) or matches 100% of your electricity usage (available at select power companies).

In 2022, the product was made up of the following new renewable energy resources.

Green-e[®] Energy Certified New²
Renewables in Green Switch

Generation Location

100% SOLAR

TN

[First Last]
[Street Name]
[City, STATE zip+4]

1. These figures reflect the power delivered to customers participating in Green Switch in 2022.

2. New Renewables come from generation facilities that first began commercial operation within the past 15 years.

The average home in the Tennessee Valley uses 1200 kWh per month. [Source: TVA]

For specific information about this electricity product, please contact your Local Power Company or TVA's Green Switch at renewables@tva.gov, the toll free Renewable Energy Information Call Center at 1-866-873-4340, or visit www.TVA.com/GreenSwitch.

Green Switch is Green-e[®] Energy certified, and meets the environmental and consumer protection standards set forth by the non-profit Center for Resource Solutions. Learn more at www.green-e.org.
